

EW07 Palm Vein Handle Lock

EW07

Palm Vein Recognition

Decoy Password Feature

Local alarm

Product Overview

The EW07 Palm Vein Handle Lock combines the classic look of a traditional handle lock with modern smart features. Its sensor and touchscreen keypad are seamlessly integrated into the handle, offering both style and functionality. Supporting Bluetooth connectivity and app-based local management, the EW07 is designed for those seeking a balance of traditional design and advanced convenience in their smart homes or offices.

Key Features

Palm Vein Recognition

Leverages unique palm vein patterns for secure unlocking, unaffected by fingerprints or skin color differences, offering unparalleled safety.

Decoy Password Feature

Allows random digits before or after the real password to prevent prying, enhancing password security.

Local alarm

Locks the device and triggers an alarm after multiple failed attempts, preventing brute-force attacks and enhancing security.
